What is Click-to-Print?

- Also known as “remote publishing”, it helps you create brochures, business cards, or any personalised printed item online.
- Allows you to customise pre-designed templates or upload your own unique content for automated print production.
- Using your organisation’s brand, CBF Print builds a Click-to-Print web site that looks like an on-line designer template where you can upload photos, replace, and update texts.
- Produce and send professional printed materials directly from your computers to our equipment.

Benefits of Click-to-Print

- There will be a uniformity of designs that will help reinforce your brand’s image.
- You can create your own printed materials (brochures, flyers, business cards), make changes to the documents, track information, print and ship the products quickly and efficiently from this Click-to-Print website.
- You could have personalised materials for your sales reps rather than generic materials.
- You will pay less for storage and inventory control because you’ll only print what you need.

01 Planning

Collecting information regarding the website that our partners want to develop.

02 Communication

Exchange of ideas between developer and partners on how and what they want to develop.

03 Analysis

Understanding partner's requests and suggestions in creating the website.

04 Creation

Developer's complied ideas and partner's request and materialising it, creating desired website.

05 Management

Multiple tasks involved in the administration of a Web site, including hosting, monitoring, verification that all contained links are active, maintenance, and so on.

Process of Click-to-Print

Developer and partner's cooperation together to maintain the website supplying correct information and updating everytime there is a change.

CUSTOMISE ORDER

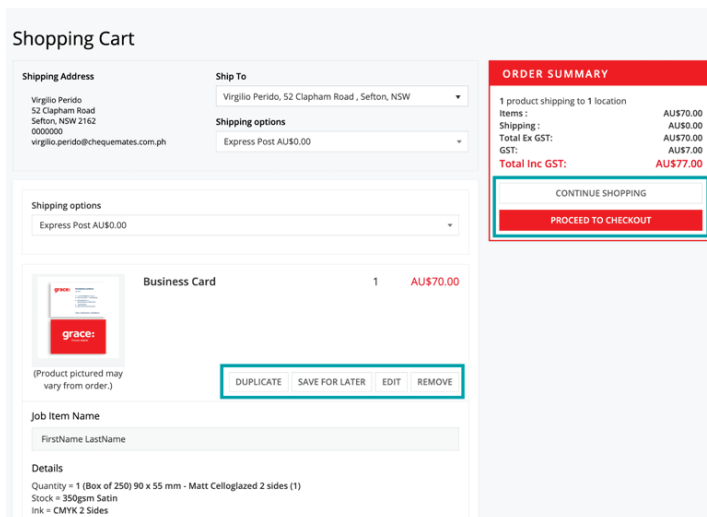

Ordering Process

To begin ordering merchandise, click on any products available you wish to purchase and you will be directed to ordering page.

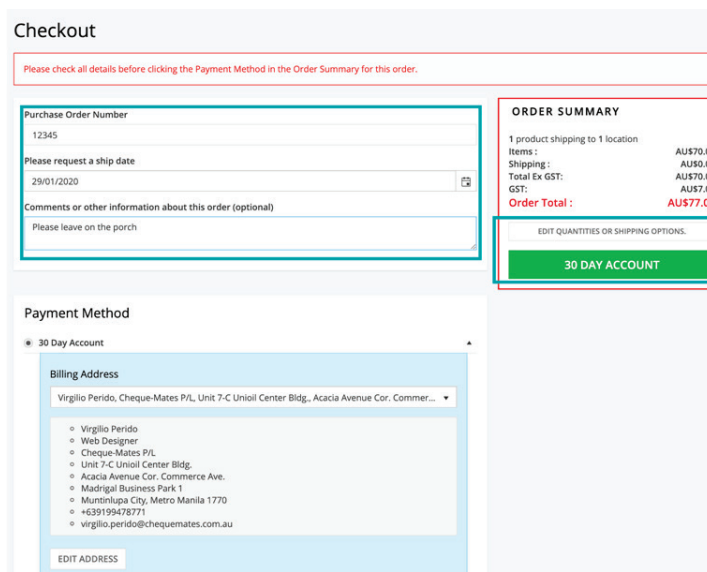

Template Customisation

You can customise the template according to your preferences. Required fields can also be customised and can be set as optional. Click on the "Update Preview" to show the changes and information made on the template. If you are satisfied with your document, proceed by clicking first the "Yes, I approve the document" before clicking the "Add to Cart" Button."

Shopping Cart

When you click "Add to Cart" button, you will be redirected to your Cart page which contains all the orders that you add as shown below. You can add multiple items in your cart as needed, and you can delete them as well.

Completing Your Order

The checkout process is simple. You just have to verify that all the information is correct. Enter the appropriate information in the blank comments field, if any. Choose the appropriate payment method that is convenient for you. You can also edit the billing address if necessary.

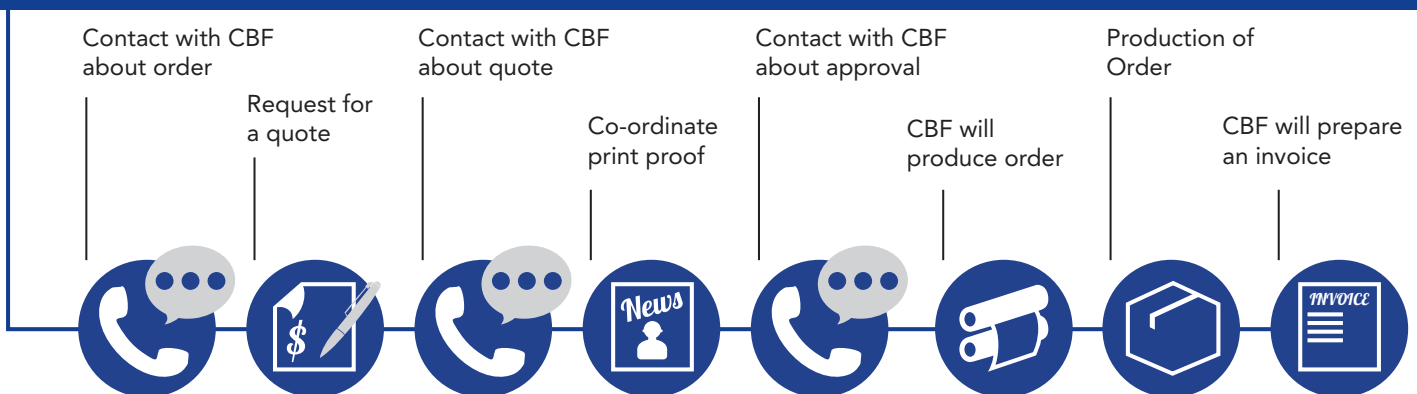

Ordering Process

Start placing your orders online today!

- Create your own personalised website with our Click-to-Print.
